

GreenTrack™

An end-to-end fashion traceability solution powered by
Blockchain Technology By

Birla Cellulose
Fibres from nature

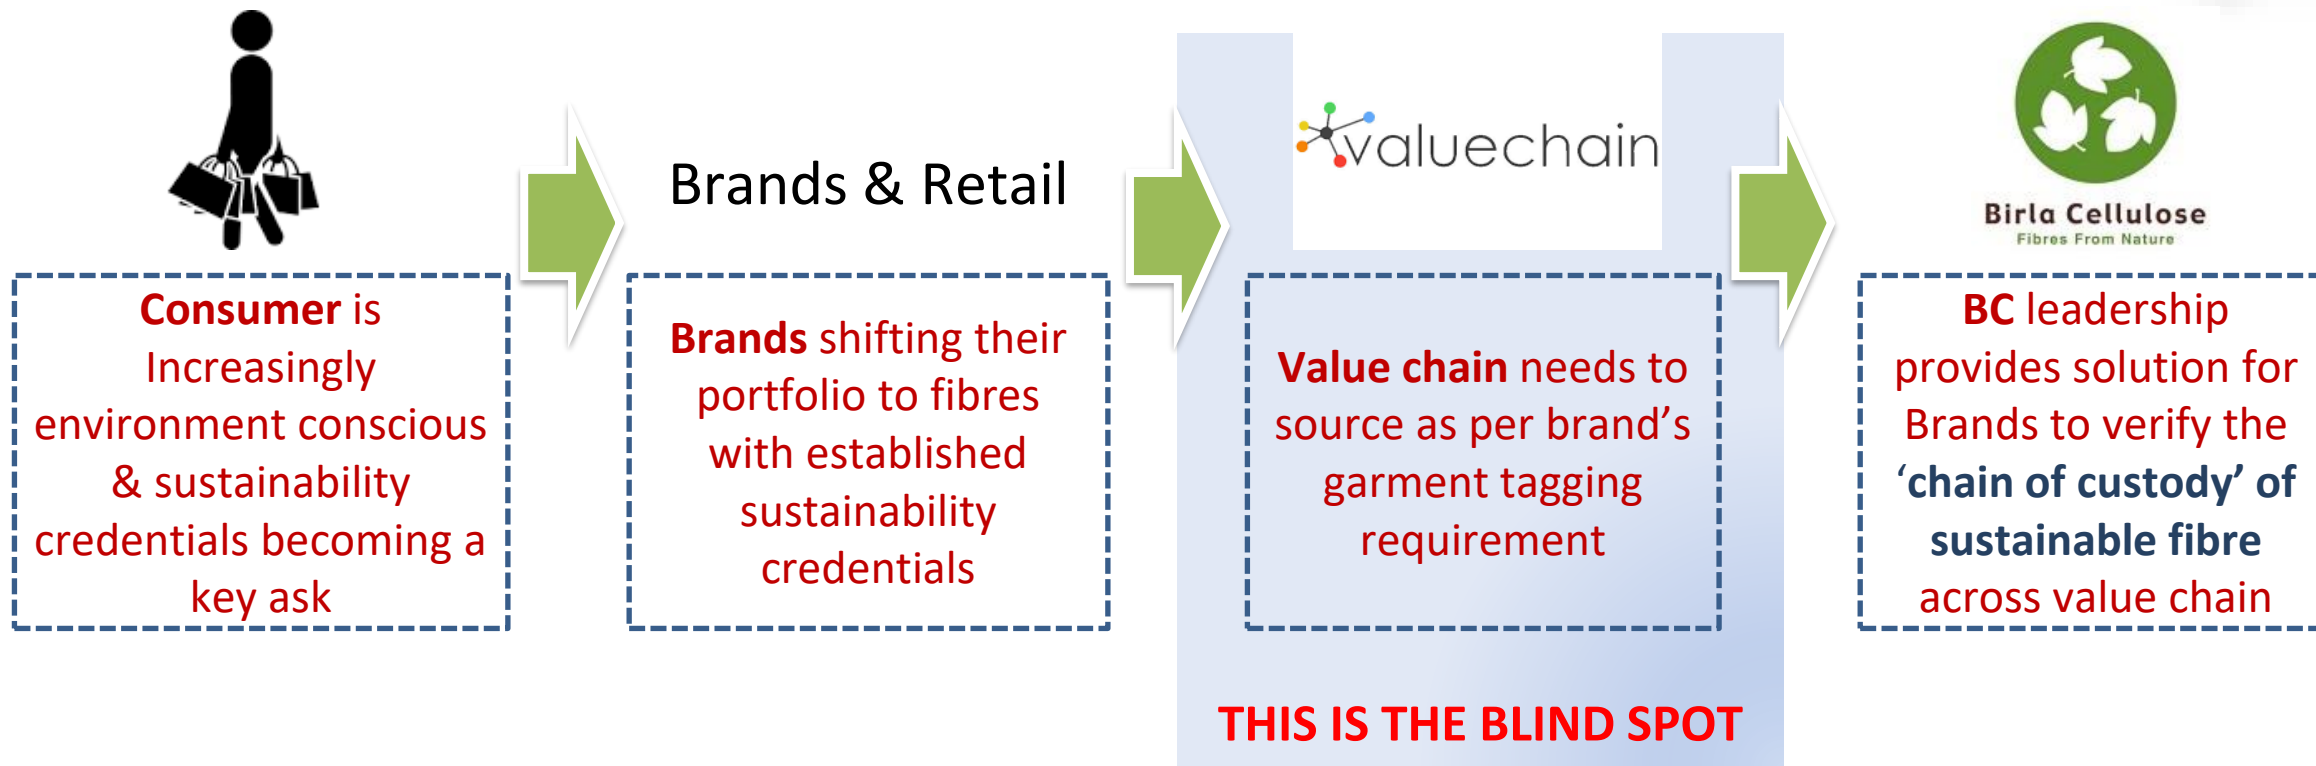

ADITYA BIRLA GROUP

Brands Requirement – Need for Traceability

Birla Cellulose
Fibres From Nature

The expectations are –

1. **End Consumers:** Demonstrable sustainability credentials of garments they buy, preferably on their fingertips.
2. **Brands:** Verification of sustainability credentials across the chain for all their products

- 1st of its kind blockchain based traceability solution in the textile industry
- More than 1500 global supply chain partners onboarded, tracking millions of ‘live’ transactions on the platform per year
- Mapping the journey of cellulosic content from forest all the way to brand stores
- Major global brands/retailers on the platform – Marks and Spencer, H&M, Tesco, Walmart, ABFRL, Varner, Bestseller, Benetton, etc.
- 1st global viscose producer to receive “Dark Green Shirt” Ranking in Canopy Hot Button report and ranked #1 in the world – major contribution of Traceability with full marks in that pillar.

GreenTrack™ - Awards & Recognition

Birla Cellulose
Fibres From Nature

1. NASSCOM CoE EXCELLENCE AWARD – DEC 2021
2. IMC DIGITAL TECHNOLOGY AWARD FOR EXCELLENCE IN DIGITAL IMPLEMENTATION – JUNE 2021: GREEN TRACK (BLOCKCHAIN BASED FOREST TO FASHION TRACEABILITY)
3. SKOCH ORDER OF MERIT – FEB 2021
4. FORBES TOP 50 BLOCKCHAIN BASED SOLUTIONS IN THE WORLD – FEB 2021
5. ABG BIZLABS AWARD - 2020

Sappi

Johannesburg, South Africa

The South African pulp producer has partnered with Indian eco-friendly fabric maker Birla Cellulose on GreenTrack, a blockchain that tracks fabric products from sustainable forests to pulp to manufacturing plants. More than 250 supply chain partners, including Walmart and Marks & Spencer, now use GreenTrack to verify the sustainability of the apparel they sell.

Blockchain platforms: GreenTrack, Hyperledger Fabric

Key leader: Krellyne Andrew, general manager sustainability, dissolving wood pulp

GreenTrack™ ADVANTAGE

Raw-Material
traceability from
Forest to Fashion

Transparency
across the
supply chain

Strengthen
sustainability
credentials

Strengthen brand
and consumer
connect

Supports
sustainable
sourcing

OUR TRACEABLE FIBERS

Birla Excel

** Eco-enhanced spunshades

HOW DOES IT WORK

Value Chain Traceability **GreenTrack**

Live mapping of the material journey from forest to fashion through every supply chain node

Source Verification through **Molecular Tracer**

Unique molecular additive inside the fibre for source verification at any stage – fibre, yarn, fabric & garment removes any possibility of counterfeit or dilution.

- Blockchain based technology
- Track the material flow upto its origin
- Two-fold provenance tracking
- Live linking

GreenTrack™: Forest to Fashion Traceability

Solution offers **2-fold provenance tracking** based on 'live' linking

1

PO tracking up the value chain: **unique QR code created** Brand to intermediaries to Birla Cellulose

FOREST

PULP

FIBRE

YARN

GREY FABRIC

PROC. FABRIC

GARMENT

BRAND

Chain-of-custody of FSC certified material flow from **Wood to Fibre** is internally maintained and certified

2

Material delivery and invoice tracking down the value chain – BC to intermediaries to Brand

1

Order Initiation from Brand/Buying-House – Block requirements start building during this track, basis data on quantity requirements, delivery dates and partner selections

2

Shipment Initiation from Birla Cellulose – Block fulfilment and blockchain formation, basis mass balancing at each node of the material flow across transparent value chain

Real Time Mapping

How To get started on GreenTrack™ C-o-C Solution.....

Steps to start Traceability on this Solution...

- **Brand** to agree to work on BC platform. Then register and initiate order on a garment supplier on the platform.
- **Garment supplier** to register on the platform and receive the requirement from brand and then place the requirement with the finished fabric supplier.
- **Finished Fabric supplier** to register on platform, receive order from Garmenter and place order of grey fabric
- **Grey fabric manufacturer** to register on platform, receive requirement from processor and place order for yarn
- **Spinner** to register on platform, receive the requirement of yarn from grey fabricator and place order for Fibre with Birla Cellulose.
- **Birla Cellulose** to receive the order for Liva Eco & other tracer enabled fibres, supply, while linking the invoice with the order.
- Supply trail continues till the garments are dispatched to the Brand's warehouse.
- A Unique QR Code is generated, visible real time once brand places the order on garmenter

BC Team would support on-boarding each value chain partner in this journey

How GreenTrack™ Traceability tool works.

Purchase Order Flow

04-05-2023

Brand

Garment Manufacturer/ Buying House

Finish Fabric Supplier

Greige Fabric Supplier

Spinner / Yarn Manufacturer

Birla Cellulose / Fibre Supplier

Pulp Supplier

Forest/ Wood Supplier

Shipment / Goods Flow

Brand gets COMPLETE traceability of entire Value Chain from Forest to Fashion on GreenTrack™

Transaction certificate generated at each Buyer & Seller level for every shipment

1. PO tracking up the value chain: a unique QR code created:

Brand to intermediaries to Birla Cellulose to Forest

2. Material delivery and invoice tracking down the value chain:

Forest to Birla Cellulose to intermediaries to Brand

3. Mass balancing at each node of the material flow across transparent value chain.

Unique Advantages of GreenTrack™ C-o-C Solution from BC

Advantages to Brands:

- **Complete traceability** of their orders in the value chain on real time basis..
- Visibility on the complete value chain from **forest to fashion** to ensure right partner selection
- Enables to take corrective actions, in case of delays etc in the process.
- Complete information on the journey from forest to fashion is available through a **unique QR Code** which can be made available to the consumer conveniently

Advantages to the Value Chain Partners:

- Visibility on orders from the buyer and shipments from the supplier on real time basis.
- Visibility to the Brand ensures preference resulting in business growth.
- Preference by brands entering the eco-system for value chain partners who are already on the platform.

SUSTAINABILITY, A WAY OF LIFE.
